From Watanabe Takashi, the well-known director of the popular comedic fantasy *Slayers*, comes the polar opposite of that series -- an arty, atmospheric fright fest!

The world of Boogiepop takes a turn into something completely unexpected with the appearance of the fragile and childlike Poom-Poom. His quest seems an innocent one: make friends with people and play throughout eternity in Paisley Park. Traveling throughout the city with Manaka, even Poom-Poom seems to have an appointment with the Angel of Death. Now in the final volume of the series, the pieces of the puzzle fall into place. The time has come for the fates of our varied characters and even that of the city itself to meet their ultimate conclusion..

The questions are now answered.

The last three episodes of the popular psychothriller! "Poom Poom," "under the gravity's rainbow," and "a requiem."

Includes stunning 5.1 soundtrack, gallery, director and voice actor commentary, video liner notes, an introduction from producer, and much more!

"A bit like Bergman taking a stroll through Twin Peaks while holding hands with William Gibson.. On the edge of horror as well as psychodrama, Boogiepop is a creation that stands alone.." [Fantasia Film Festival]

"This anime is a genre-harmonizer: we can't really categorize it as Horror, Science Fiction, or Psychological Drama... This anime is all that in one!" [Protoculture Addicts]

"A+ Pick. A spooky sepia puzzle." [Sci-Fi Weekly]

A scream in the night, and in that instant the world changed ... or at least, it appeared to. There have always been forces in the world and voices in the night: some friendly and other malevolent. Invisible until summoned, they slide through dimensions as people walk through doorways. They wait, and watch the doings of Man closely ... each for their own reasons. Sometimes, they appear ... and when they do, the world changes again.

Everyone knows about Boogiepop: meet her one dark night and you are taken. People tell each other the stories and laugh: no one believes that she exists in this day and age. Still, there are some strange things that appear to be going on just below the surface. Darkness takes many forms, though. Evil and good intermingle. Lives end and others begin. And, others who were never meant to be born are thrust into existence. The glass shatters. Time stands still. There is something in the darkness. You aren't alone. Are you safe? Five years ago, there was a string of grisly murders that shook the city to its core ... and in the present, psychic echoes reverberate.

Throughout all, a sense of helplessness is universal as people go about their daily lives: they are not in control of their destinies and on some level the most sensitive are aware of it. Refuge is sought. The past can be a very comforting place. It can also be a horrific one.

And, just below the surface, predators await the unwary.

Get all four discs in this special collector's set. Includes stunning 5.1 soundtrack, gallery, director and voice actor commentaries, video liner notes, an introduction from producer, and more extras yet to be determined.
